Subject: RE: Aerojet question from someone running for office

Lynn – His request is not very clear – 95670 is Rancho Cordova and Gold River, does not include Area 40. I will shoot him an e-mail asking to clarify what data he is looking for.

Alex

Subject: Fwd: Aerojet question from someone running for office

Hello, Chris, Mark, and Alex.

We received this data inquiry via HQ from Mr Richardson, who came to the May CAG and is running for Rep. Bera's seat. I am unsure of what data monitors he's referring to around Area 40. Could one of you please help answer this request by providing this data (if available) directly to Mr Richardson?

Thank you and have a good holiday weekend,
Lynn

Subject: Aerojet question from someone running for office

Hi Lynn and Jackie,

I thought the two of you would be in the best position to address this question. Please let me know if this should go to someone else.

Thanks

Our mission is to return the most contaminated areas of country to communities for safe reuse in a healthy environment.

5/23/2018	Chris Richardson	rcr@rcresearch.us	I am running for Congress in the 7th District of California and am interested in the monitor data for ground water contamination from Aerojet in the 95670 Zip code. I understand that there is 16 gigabyte of monitor data available. This is area 40 for this area. I can also be reached at 925-550-3911. I am also interested in bio-denaturing of TCE in the aquifer.
